2ND International Conference & SUMMIT OF EXPERTS

The Societal Automation conference series looks in a holistic way at the Societal Automation domain to identify what solutions, technologies, architectural frameworks, and design tools are going to be needed in the design, development and deployment of future human-centered life-quality improving solutions and systems.

The conference will feature SUMMIT OF EXPERTS zooming in on Large-Scale Ultra-Complex (Engineering) Systems, such as Smart Cities & Cities of the Future, with emphasis on design issues and economics of innovation and new technology.
